Preface

The *American Book Publishing Record (BPR)* cumulatives are published annually. They are cumulatives of the 51 issues of *Weekly Record* published by the R. R. Bowker Company each year. In 1979 the Department of Bibliography, (Weekly Record Department), published in the *Weekly Record* and the *American Book Publishing Record* monthlies, approximately 38,000 titles published in the United States or distributed here by agents of foreign publishers.

Over the past two years a slight change was implemented in the selection methodology for inclusion of titles in the *WR/BPR*. We felt that this change would offer a better insight into the true representation regarding the amount of titles published and distributed here each year. We have, therefore, extended our time limit policy of including the previous year's titles from six months of the following year to twelve months of the following year.

Our primary sources for inclusion of entries in the *Weekly Record* and *American Book Publishing Record* are books submitted to the R. R. Bowker Company and authorized American distributors of foreign titles distributed in the United States, and information from the Library of Congress on MARC II tapes. Entries that are marked with an asterisk (*) are entries that were prepared by the R. R. Bowker Staff. Entries without collation are Cataloging in Publication (CIP) entries. We have made every effort to include in this edition completed cataloging for CIP entries and entries cataloged by Bowker.

Not included in these listings are federal and other governmental publications, subscription books, dissertations, new printings (as distinct from reprints, revised or new editions), quarterlies and other periodicals, pamphlets under forty-nine pages, and specialized publications of a transitory nature or intended as advertising. However, we will include in the *WR/BPR* pamphlets under 49 pages if we feel that the subject matter of the pamphlet is important enough to merit public interest. For the purpose of compiling the statistics from these listings the UNESCO definition of a book (a non-periodical publication of forty-nine pages or more not including covers) is strictly observed.

The format of entries reflect the ISBD (M) format with some modification. Briefly, the ISBD format divides the monographic bibliographic description into seven areas (1) title and statement of authorship, (2) edition, (3) imprint, (4) collation, (5) series, (6) notes, and (7) ISBN, binding, and price. On the Library of Congress printed cards each of these areas is divided from the following by a period-space-dash-space(. —)unless the paragraphing and/or topography clearly delineate them. In the *ABPR Cumulative* as well as *Weekly Record* entries, this period-space-dash-space convention will not be used. Additionally, the ISBN, binding and price have been positioned after the Library of Congress call number (s), secondary Dewey number (if present), and card number.

When available the following elements are included in each entry: main entry, title (in italics), subtitle, author

statement, publication place, publisher, publication date, collation, series statement, general note or contents note, LC Classification number (in bracket), Dewey Classification number, LC card number and subject tracings. Every effort is made to include publishers' addresses for obscure publishers, ISBN (International Standard Book Number) for each volume, and up-to-date price and binding information.

The annual *ABPR*s are arranged in four sections. The main section is arranged in Dewey main entry sequence, followed by Adult Fiction and Juvenile Fiction sections which are arranged in main entry sequence. There are 2 indexes, author and title, and a Subject Guide. The author and title indexes, referenced to the main section is given by the first nine digits of the Dewey Decimal Classification number. Entries in the Adult and Juvenile Fiction sections are referenced in the author and title indexes by a section code, i.e. Fic and Juv respectively with author's last name in parentheses.

The Subject Guide follows the title index, and is arranged alphabetically by traced initial subjects; however, common initial subjects are not listed separately. The Subject Guide is designed to show corresponding initial Deweys and Library of Congress Classification numbers for each traced subject represented.

The *Weekly Record* sells for $15.00 per year U.S.A. and is published weekly 51 times per year. The monthly *American Book Publishing Record* published monthly is sold at $25.00 per year U.S.A. Also available is the 1950-77 *American Book Publishing Record*.
